KCAA Scholarship FAQs

Where did the money for the scholarships come from?

The monies were raised from the KCAA Golf Scramble through sponsorships, player registration, and other gifts designated for the scholarship.

How can participate as a player or sponsor in the next scramble?

The KCAA uses GolfStatus.com for all event information including sponsorship and player registrations. Information will be posted on KCAAonline.com.

Do I have to participate in KCAA athletics to apply for a scholarship?

Yes, only KCAA student athletes will be allowed to apply for a scholarship.

Why aren't player stats being considered on the application?

The scholarship was created to encourage students to participate in their high school athletic programs. The player "at the end of the bench who may have rarely received playing time" still contributed to the school being able to field a team.

Can applications be emailed?

No. Applications must be sent via USPS, UPS, FedEx, etc. Applications should be mailed at least a week prior to the due date to ensure timely delivery. Some applicants mailed their application via "certified mail" or FedEx so that they can track the delivery of their application. The KCAA is not responsible for lost or delayed delivery of applications.

The mailbox the applications are being mailed to is a high security ¼" thick steel locking mailbox. Your applications are safe once they are delivered.

Who judges the applications?

The judges are selected by KCAA Vice President Mike Dechman. None of the judges have any connection with a KCAA member school.
